

HASHDIGITS

COMPANY PROFILE

www.hashdigits.com

About US

HashDigits is a leading cryptocurrency mining company that specializes in the efficient and secure extraction of digital currencies. Our cutting-edge technology and expertise in the field of mining enable us to generate substantial returns for our investors.

Here are some key benefits of becoming an investor with HashDigits:

High Return Potential: Cryptocurrency mining has proven to be a lucrative investment opportunity, with the potential for significant returns. HashDigits utilizes advanced mining rigs and optimized mining strategies to maximize profitability.

Diverse Portfolio: HashDigits is committed to diversifying its mining operations across multiple cryptocurrencies, reducing the risk associated with relying on a single digital asset. This diversification

strategy allows our investors to benefit from various cryptocurrencies, including Bitcoin, Ethereum, and more.

State-of-the-Art Infrastructure: We have built a robust infrastructure with state-of-the-art mining facilities, including powerful hardware, efficient cooling systems, and reliable power sources. This ensures optimal mining performance and stability, leading to consistent returns for our investors.

Hashdigits, a name you could trust

Our service offering is unique, professional and strong with a personal touch. We take our responsibilities very seriously, and do all we can to provide the best service to every client. We constantly look at ways to improve and provide even more value for money to our clients.

WHY WE STAND OUT

Offering Independent Financial Advice.

We will advise you and make a recommendation for you after we have assessed your needs. Our recommendations will be based on a comprehensive and fair analysis of the market.

WHAT WE STAND FOR

Maintaining the premium standards always

We are committed to providing the highest standard of financial advice and service possible. Our clients goals are of paramount importance and therefore our systems and procedures place you at the heart of our business.

OUR PHILOSOPHY

We help you see the world differently, discover opportunities you may never have imagined and achieve results that bridge what is with what can be. Our clients' goals are of paramount importance and therefore our systems and procedures place you at the heart of our business. We are open, honest and transparent in the way We deal with you and We place your interests first at all times.

We seek your views and perceptions of our dealings with you to ensure We meet up with your expectations always.

Our Mission

Wherever your financial interests lies on, you can rely on us to provide financial solutions to suit you. This means offering you the widest selection of instruments, platforms, account types and resources to make your investment experience as efficient and convenient as possible.

We provide investment/financial products and services to meet the needs of our clients and deliver superior returns. In doing so, the aspirations of our employees for growth and development are realized, and enhanced value achieved for all our stakeholders

Our Vision

Whether you're an experienced trader or completely new to it, we're here to help you find freedom in the financial markets.

As one of the successful brands operating within this space, we are specialists in leveraged trading, giving you the potential to generate financial returns on both rising and falling prices across FX, stocks, commodities, shares and cryptocurrencies.

Our Corporate Social Responsibility

Our job is to help our clients plan for the future, and part of having a bright future is having a healthy world to live in. At Hashdigits, We are committed to being a mining company which has a positive impact on our world, promoting responsible business practices.

We have been mining crypto currency for over 8 years and clearly, in this time, the world has changed a lot. We have evolved and believe it is important to continue to do so for future generations.

WHAT WE DO FOR YOU

Our job is to help our clients plan for the future, and part of them having a bright future is having a healthy world to live in. At Hashdigits, we are committed to being a firm that has a positive impact on our world.

We consistently strive to be the best we can be, expanding the reach of our strong, secure, and sustainable company. Our company values benefit our clients, staff, shareholders, and the wider community in which we work.

We achieve this by being the name our clients can trust for their financial planning and insurance needs.

Find out more about how we achieve this by reading our Environmental, Social & Corporate Governance Policy Document.

Ethical investing plays a big part at Hashdigits. We have been managing Ethical Portfolios since 2009 with ESG at their heart.

Expert Team

Our team comprises experienced professionals who possess in-depth knowledge of blockchain technology and cryptocurrency mining. They continuously monitor market trends, adjust mining strategies, and employ the latest industry best practices to maximize returns for our investors.

Transparency and Security

Our team comprises experienced professionals who possess in-depth knowledge of blockchain technology and cryptocurrency mining. They continuously monitor market trends, adjust mining strategies, and employ the latest industry best practices to maximize returns for our investors.

At HashDigits, we prioritize transparency and maintain open communication with our investors. We provide regular updates on mining operations, performance, and financials. Additionally, we implement robust security measures to safeguard the mining infrastructure and investors' assets.

Planning Workflow

01 IT BEGINS WITH YOU: The most important job we have when you first meet us is to begin to understand your personal needs, concerns and hopes for the future

02 KNOWING YOUR POSITION: Then when we know what you wish to achieve, then we can start to make a full documentation of your current financial status

03 SYNCING IDEAS TOGETHER: We analyse your position, looking for opportunities and planning strategies to create your own personal financial plan.

04 KEEPING YOU ON COURSE: Every journey has bumps and turns. We are on hand to make sure your financial plan continues to head towards your goals over the years

05 MANAGING INVESTMENTS: A fundamental part of your financial plan is how your investments are arranged and managed. Our investment team will make sure your investments stay on track

06 GROWING YOUR PLAN: Now we set to work putting into action the strategies we have created. You can sit back and let us do the work running your investments across all sectors

Our Values

Caring about people

Keeping people safe and healthy and respecting our communities and the environment.

Integrity & honesty

Doing what we say we will do and doing the right thing.

Working together

Having shared goals and helping one another to achieve them.

Innovation & problem solving

Challenging convention and finding a better way.

High performance

Seeking high performance in ourselves and others.

Our strategy is based on three main investment principles:

- * Risk Assessment and Management
- * Clarification and diversification
- * Active and regulated management

Charities and Trusts

Charities and Trusts are living breathing things which often need as much attention and planning as your own personal finances, if not more. We work closely with our Charity and Trust clients to help them fulfil their duties, putting tailored plans in place to meet their needs and objectives.

Whether the investment objective is income production, investment growth, or a combination of the two, our discretionary management proposition and ongoing advice service takes as much stress away from the individuals as possible.

Investment Management

At Hashdigits we have an experienced investment team that works alongside your financial planner to build an investment strategy that is suited to you, and will aim to help you achieve your life goals and aspirations.

Our clients trust us to manage over £1bn of their wealth collectively, with over £650m in real estate investments. We take this trust extremely seriously, and have a robust investment process built over many decades to continue to provide our clients with the investment experience they have come to expect.

Our Approach

A fundamental part of your financial plan is how your investments are arranged and managed. Your financial planner, after understanding where you are in life and what you wish to achieve, will work with our investment team to make sure your investments are set up efficiently and suited to your specific needs.

We have our own dedicated investment team who manage our clients' portfolios. They monitor markets and trends, making changes where necessary, to provide healthy risk adjusted returns.

We believe in these main investment principles:

Risk Management

Your investment experience is tailored to your needs and appetites. We then continue to manage this on your behalf so you can have peace of mind.

Diversification

Diversification comes in many forms. In a portfolio it comes from geographical positioning, different assets, currency considerations and changing societal themes. Our experienced Investment Oversight Committee (IOC) makes these decisions on your behalf.

Active Management

within investment parameters agreed with you. In an ever-changing world of fast paced events, it has never been more important to have a trusted manager able to make decisions on your behalf.

INVESTOR CENTRE

Our investment team and IOC undertake thousands of hours of research, fund manager meetings and detailed analysis in order that our portfolios continue to include the best funds for a portfolio, given its investment parameters.

How we Build your Portfolio

We have our own dedicated investment team who manage our clients' portfolios. They monitor markets and trends, making changes where necessary, to provide healthy risk adjusted returns.

Solutions for Every Need

There is not a one-size-fits-all approach to investing and that is why our investment team and your financial planner are able to consider a wide range of options to suit your specific needs:

Comprehensive Portfolio Management

We manage money for private clients, trusts and businesses. For some clients with specific needs, we can build a bespoke portfolio that is specifically tailored to them, thus allowing for a unique strategy.

Clients receive regular updates from our investment team, setting out their thoughts on world events and market movements. You will never be in the dark about your investment or how it is being managed.

What We Offer

PENSIONS ON DIVORCE

Financial settlements in divorce proceedings rely on a fair, consistent and accurate assessment of your assets and liabilities, personal injury and medical negligence.

Financial planning after an accident or long period of sickness is more than simply advising you how to save or invest the money you receive.

PROPERTY SERVICES

Property Lending & Insurance Services

Whether you're looking to insure a residential property, buy your first home, remortgage, borrow in later life, or release money from your home, we have specialists who can help you to find the best solution for you.

MORTGAGE LENDING

Whether you're looking to buy your first home, remortgage at better rates, borrow more or purchase a Buy to Let Property, our Mortgage Advisers can help you. Even if you have adverse credit history or specialist lending requirements, we specialise in finding solutions including:

LANDLORD PORTFOLIO

While Mortgages can be a complicated and confusing area, we can give you peace of mind knowing the details are taken care of, and importantly that you will get the right product for you.

LATER LIFE LENDING

There are a whole host of products on the market now for borrowers aged 55 and over. If you have an interest only mortgage, or if you have accumulated debts, the Later Life Lending route is an option to consider. You can also buy a property with Later Life Lending, it is not just for re-mortgaging.

Borrowing can be serviced with regular or ad hoc payments. This route can also be used for Hashdigits and Care Planning.

Equity Release

As a homeowner, you may find a large amount of your total wealth is tied up in the value of your home. While for many the desire to pass their home on to loved ones means they don't consider Equity Release, it is not an area to be overlooked. For the right situation, it can be a lifeline and improve your quality of life at the time you need it the most.

Speak to one of our specialist advisers to find out whether this could be something worth considering for you.

Equity Release uses a lifetime mortgage or home reversion plan. To understand the features and risks, ask for a personalised illustration. Equity release, home reversion plans and lifetime mortgage are complex products and you should request personalised information. Equity release could affect your income tax position and your entitlement to state benefits; it could also restrict future options for moving a house or paying long term care. If you are using an equity release plan to consolidate debt, you are taking a previously unsecured debt and securing it against your home. Equity release could reduce the value of your estate that your beneficiaries expect to inherit. You should talk to them before committing to a plan. Using equity release to raise investment capital is inadvisable under most circumstances and you should talk to an investment adviser if this is your intention.

Risk warnings

Think carefully before securing other debts against your home. Your home may be repossessed if you do not keep up repayments on your mortgage. The Financial Conduct Authority does not regulate buy-to-let lending and some forms of bridging finance.

We focus on value investing

Our objective is to deliver attractive investment performance over the medium-to-long-term, enabling clients to meet their investment goals. We do this by providing cost-effective access to a professionally managed service, supported by in-depth financial analysis and insights.

OUR PEOPLE

Hashdigits is committed to respecting and responding to the cultural values, traditions, customs and beliefs of Indigenous communities throughout the world.

BUILDING AN INCLUSIVE CULTURE AT HASHDIGITS

Diversity and inclusion are essential parts of Hashdigits's vision, values and company culture.

Our different backgrounds and perspectives help us find better ways to: innovate, collaborate and solve problems; attract and retain the best people; explore, develop and produce more gold safely and profitably; and help make Hashdigits a better place to work.

Our Refreshed Diversity and Inclusion Strategy 2021-2025 is based around three key levels:

- Inclusive Leadership
- Systematic Alignment and;
- Engagement of our people and communities.

Corporate Governance

Adherence by the Company and its people to the highest standard of corporate governance is critical in order to achieve its vision.

The Company follows the recommendations for effective corporate governance as published by the Company House Corporate Governance Council (4th edition Principles and Recommendations) and regularly reviews its governance and compliance practices.

The Hashdigits Board comprises eight directors. The Board has determined that all Non-Executive Directors including the Chairman are considered independent in accordance with the Board's Independence Policy.

The functions of the Board are set out in a Board Charter. Charters for each Board Committee set out the roles and responsibilities for the Committees and can be viewed below. These Charters are regularly reviewed and revised where appropriate.

Hashdigits recognises the importance of keeping the market fully informed of the Company's activities and of stakeholder communication in a timely, balanced and transparent manner.

The Board has adopted a Market Disclosure Policy to ensure the Company meets the continuous disclosure requirements of the and the other exchanges on which it is listed. In this respect, the Board is supported by the Disclosure Committee: Disclosure Committee Charter.

Employees are encouraged to be long-term holders of Hashdigits's shares. It is important that care is taken in the timing of any acquisition or disposal of those shares or securities in any company in which the person may possess inside information.

The Company has a Securities Dealing Policy which includes blackout periods when employees must not deal in the Company's securities. Hashdigits has adopted a Code of Conduct applicable to all our employees, officers, directors, contractors, consultants and third parties who work with us, or on our behalf. The Code is our blueprint for the way we work and sets the expectations for people and the benchmark for all of us to live up to.

Hashdigits's Speak Out Policy applies to all current or former employees, officers, directors, contractors, consultants, suppliers or relatives of the above who are encouraged to Speak Out about any misconduct, anything that may be unethical or illegal, any safety issues or any serious breaches of the Code of Conduct.

A choice of reporting channels are available so you can Speak Out in a way you are most comfortable, including an independently administered hotline, where reports can be made anonymously.

Hashdigits's Anti-Bribery, Fraud and Sanctions Policy, Code of Conduct and related policies strictly prohibit activities involving bribery, corruption, unauthorised payments or exercising improper influence by all employees and contractors. Hashdigits is committed to a culture of trust, integrity and honesty.

Organisational and workforce diversity at Hashdigits is led by the Board and is driven by recognition that an inclusive culture and diverse workforce supports high performance. The Diversity and Inclusion Policy outlines how Hashdigits supports a diverse and inclusive workforce. Oversight of risk management practices and internal controls is a key responsibility of the Board. Hashdigits has a detailed risk management

and internal control framework incorporating policies and procedures which set out the roles, responsibilities and guidelines for identifying and managing material business risks.

The effectiveness of this framework is reviewed regularly by the Board with the support of the Audit and Risk Committee.

Hashdigits recognises that risk is inherent in its business and that effective risk management is essential to protecting business value and securing the growth of the Company.

Accordingly, we will:

- Consider risk when establishing the appropriate strategic direction for the Company with regard to the diverse environments in which the Company operates
- Maintain a framework to describe how risk management is effectively implemented and integrated into Hashdigits business systems and processes
- Apply risk management techniques as an integral part of decision-making at all levels
- Identify the potential impacts on the Company by undertaking risk assessment using approved criteria for likelihood and materiality
- Ensure that risk control measures are designed, implemented and operated to achieve a reduced level of residual risk and that control effectiveness is verified
- Implement processes for crisis management and business conti-

nunity planning that enable the Company to effectively respond to material risk events

- Provide effective risk financing strategies including insurance for the management of risk

Company policies

Our vision at Hashdigits is to be the Trader of Choice.

We will lead the way in safe, responsible, efficient and profitable trading.

We strive to achieve this by ensuring that we live and work by our values.

At Hashdigits, we value caring about people, integrity and honesty, innovation and problem solving, high-performance and working together.

These values are encapsulated in our Code of Conduct which acts as a blueprint for the way we do business.

Through this Code we are committing to strive to be the best employer, business partner and community participant and for continuous improvement of performance.

Our policies help us to try and implement best practice and achieve high performances.

Board Charter

The functions of the Board are described in the Board Charter. The role of the Board is not to manage the Company but to set, on behalf of the shareholders, the Company's strategic direction and to oversee and monitor the management and performance of Hashdigits's business.

The Company has five standing Board Committees, the details of which are set out below. Each Committee consists entirely of independent Non-Executive Directors. All Directors are invited to attend Committee meetings and receive all Committee papers and minutes.

The number of Board and Committee meetings held during the financial year and each Director's attendance, are set out in the Hashdigits Annual Report.

Audit and Risk Committee

Function: To assist the Board to fulfill its responsibilities in relation to the integrity of the Company's financial statements, financial reporting principles, policies, controls and procedures, compliance with applicable legal and regulatory requirements, risk management processes, internal control processes and effectiveness and internal and external audit.

Human Resources and Remuneration Committee

Function: To assist the Board to fulfill its responsibilities with respect to the Company's remuneration framework and levels for all employees including Executive Managers and Executive and Non-Executive Directors, the human resources and remuneration strategies, policies and practices of the Company, the behavioural and cultural framework and practices of the Company, and oversight of organisational design and human capability.

Profitable Investments for all Clients and stakeholders

Hashdigits has sought to align our interests with those of our investors, investment partners, and employees. This has allowed us to proudly build and maintain a culture of ethical behavior, transparency, and social responsibility in both our investments and our operations.

By performing a wide range of operations, Hashdigits makes profits from different diversified sources like trading operations on the cryptocurrency and currency markets, dividends from the implementation of successful startups, and commissions for exchange operations for large legal entities.

As a global investment firm, we foster diverse perspectives and embrace innovation to help our clients navigate the uncertainty of capital markets. We're fostering a culture of diverse perspectives and innovation to help advance our clients' success. And we're doing it responsibly—from how we act to how we trade—because outcomes mean more than financial returns.

We're committed to helping you achieve better outcomes...the way you define them. We get there by empowering diverse perspectives and breaking through boundaries. We're collaborative and connected—and we never stop working for you.

Serving Our Clients

We work every day to earn our clients' trust, whether they're individual investors or the world's biggest institutions. By tapping a global network of diverse perspectives, we design innovative solutions tailored to meet investors' unique needs and engineered to deliver the performance they expect. We offer sophisticated wealth-planning tools and expert advice for

high-net-worth individuals, families and smaller institutions, helping investors make their money meaningful.

Responsible investing is part of a growing movement—one we can help you embrace. Ultimately you don't have to choose between profits and purpose. You can pursue both. Responsible investing is more than a slogan. It involves real investment choices. But there are many ways to invest through a responsible lens—and sometimes it's hard to know where to start. Let us help you with the essentials.

Our financial team also includes specialists who are experts in evaluating new private businesses called start-ups which have most chances to grow into large-scale and highly profitable enterprises. The idea is very simple: every business needs starting capital to go through bureaucratic formalities, rent premises, purchase equipment and other assets, hire employees and so on. As a rule, start-ups don't have sufficient funds to afford everything they need for effective activity. Banks are quite prudent to “newbies”, so it is often very difficult to borrow as much as necessary from banks.

Hashdigits platform intends to stay in business for a long time and do its best to ensure high revenue on investor's deposits. The more money we collect, the higher the return. That's why Hashdigits platform had started attracting small investments starting from only \$100. Our experts had examined and analyzed the relevant investment markets and developed a highly efficient trading strategy. Investors can choose from a variety of investment packages to invest their funds for different periods of time and receive the best revenue at low risks.

Our financial team also includes specialists who are experts in evaluating new private businesses called start-ups which have most chances to grow into large-scale and highly profitable enterprises. The idea is very simple: every business needs starting capital to go through bureaucratic formalities, rent premises, purchase equipment and other assets, hire employees and so on. As a rule, start-ups don't have sufficient funds to afford every-

thing they need for effective activity. Banks are quite prudent to “newbies”, so it is often very difficult to borrow as much as necessary from banks.

In addition to favorable investment proposal we also offer fair and transparent conditions of the affiliate program. You have the opportunity to start a business of your own and earn additional money by just sharing the word of our Company and demonstrating its potential to others. Our referral rewards program offers earning from deposits made by your referrals.

We understand that every customer has different circumstances and objectives and it's these differences that influence our diverse range of products. Each of our clients is assigned a personal gold consultant to offer expert guidance on products, markets and timing, with no obligation to purchase. Not merely a shopping basket experience, our investments are tailored to the investor and designed to minimize tax exposure. Our in-house specialists hold qualifications in Law, Accountancy, Investment Banking and Property and use their broad and extensive knowledge to deliver practical and tax-efficient solutions for our clients.

Hashdigits has quickly established itself as a trusted market leader. We are members of the Royal Numismatic Association, European Numismatic Association, European Chamber of Commerce and the Information Commissioner, as well as being frequently featured in the Press including FT, Daily Mail, Reuters, WSJ, Money Week, Observer, Guardian, Your Money and others.

We constantly strive to build long-term, mutually beneficial relationships with quality management teams and strategic investors. Our dedicated team of investment and advisory professionals take a hands-on approach to all of our projects and transactions. We are one of Europe's leading private investment firms.

Partner With Industry Leaders

We go beyond traditional securities servicing to provide asset owners and asset managers with the operational efficiency, market expertise and innovative solutions to help make informed decisions and achieve investment goals. With the rapid transformation of technology and a move towards the digitization of the industry, you need a custodian that can help you gain a strategic advantage in the marketplace and capitalize on the evolution of the custody business.

Hashdigits is a secure, reliable and advanced digital multi-asset financial and Investment Company built for international investors. Investments are made through trading funds, stocks, commodities and other digital assets using our in-house developed cutting-edge technology trading systems.

We constantly strive to build long-term, mutually beneficial relationships with quality management teams and strategic investors.

Our dedicated team of investment and advisory professionals take a hands-on approach to all of our projects and transactions. We are one of Europe's leading private investment firms. Our strategic, finance and management expertise enable us to build world class businesses either from existing brands or from the ground up.

A solid pool of liquidity for the company's operations is provided by attracting private investments. By allocating a part of its

profits to its investors, Hashdigits provides the company's professionals with the necessary funds to carry out trading transactions, investments, Solar Installations and conversions. Thanks to this, you can distribute funds in various directions and not miss profitable projects and deals. Our approach to active investment management is based on an investment process that fully integrates sustainability analysis into our decision-making and is focused on long-term performance.

Our investment process underpins our differentiated thinking about the dynamics that drive and influence the performance of portfolios. We construct portfolios of sustainable markets with the confidence derived from our deep research and analysis.

Hashdigits has sought to align our interests with those of our investors, investment partners, and employees. This has allowed us to proudly build and maintain a culture of ethical behavior, transparency, and social responsibility in both our investments and our operations.

By performing a wide range of operations, Hashdigits makes profits from different diversified sources like trading operations on the cryptocurrency and currency markets, dividends from the implementation of successful startups, and commissions for exchange operations for large legal entities.

As a global investment firm, we foster diverse perspectives and embrace innovation to help our clients navigate the uncertainty of capital markets. We're fostering a culture of diverse perspectives and innovation to help advance our clients' success.
